## **INDEX**

---

**For Issues Numbered 1 to 100**

---

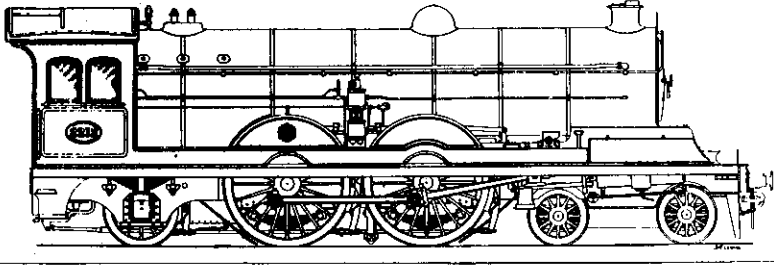

The journal of the  
North Eastern Railway  
Association

---

**N.E.R.A.**

**1961-86**

This index to the first 100 issues of the EXPRESS is published in 1986 by the North Eastern Railway Association to mark its 25th Anniversary.

All major articles appearing in the journal are listed by subject(s) in alphabetical order, as are a number of minor items such as captions to cover photographs. Items appearing in the separate Notes and News supplements are not listed, nor are reports of NERA meetings such as those at York, Darlington and London.

Index entries refer to the number of the individual journal (underlined) and to the first page on which the article appears. Thus an entry 5, 6 refers to an article beginning on page 6 of journal number 5. Articles appearing in supplements to individual issues are denoted by a suffix s (eg. 48 s) and items depicted on journal covers are identified by suffix c (eg. 92 c). The suffix f refers to the unnumbered pages found in front of some issues.
